

## Useful Steps for parents of rising Seniors booking portrait sessions on cady.com.

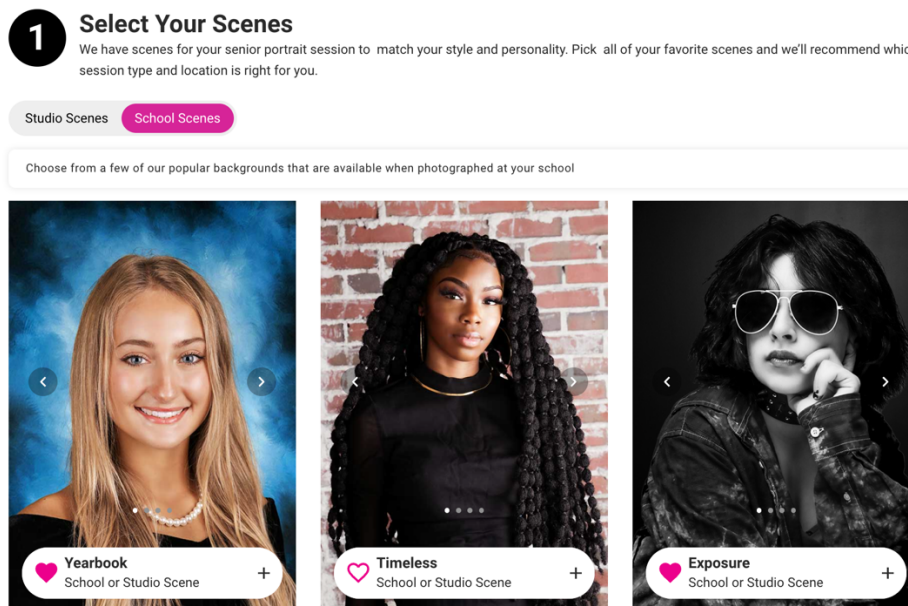

The CADY website will filter locations based on what the parent/senior has selected regarding scenes and session types. For the roadshow date to show up on the booking calendar as an option, two things need to happen:

### Step One (Select your Scenes):

If the senior wishes to book a session at the school, they will need first toggle to “School” at the top, then select either the **Timeless scene** and/or the **Exposure scene**. These are the two casual scenes that the studio team will bring to roadshows. If they want any of the other casual scenes available, they will have to book at one of the studios

If they are selecting a session at the School, they will have the Timeless and/or Exposure scene available to select:

## Step #2 (Choose Your Session)/Step #3 Confirm Choices

The senior or parent will need to choose either a Simple or a Standard session if wanting to book at the school. For any other session type, they will need to book at one of the studios.
